# About VIBHA

India faces critical challenges as a nation in its march towards a welfare state. Considering the nature of the challenges which are so unique, only rapid strides in the sector of science and technology, in resonance with India's heritage can meet those challenges. In this context Vijnana Bharati, a science movement with swadeshi spirit has a greater role to play

Swadeshi Science Movement was started in Indian Institute of Science, Bengaluru by a few eminent scientists under the guidance of Prof. K. I. Vasu. This movement gradually gained momentum and emerged as an organization with national presence. In 1991(Oct 20-21) at the Nagpur meet, it was decided, to launch the Swadeshi Science Movement at all India Level and named it as Vijnana Bharati.

Vijnana Bharati has units in all states across the country and contacts in 4 UTs. It is working in more than dozen different areas through autonomous institutions, independent organizations & also as project entities.
